SATISFACTION

A full-service software development company

SourceExpert delivers end-to-end solutions — from concept to launch and beyond. We serve as an extension of your team, bringing agility, accountability and innovation to every engagement.

Founded in 2024, we pair a US-based strategic advisory practice with a Dhaka engineering centre. That combination gives our clients Silicon Valley product thinking and cost-effective, high-talent execution in one team.

WHO WE SERVE

S

Startups

Seeking MVPs and scalable product architecture.

M

SMEs

Looking to digitise operations and accelerate growth.

E

Enterprises

Requiring robust, secure and high-performance custom solutions.

The north star behind every line of code

M

Our mission

To empower businesses worldwide with reliable, scalable and cost-effective software solutions — built by exceptional talent, delivered with unwavering commitment.

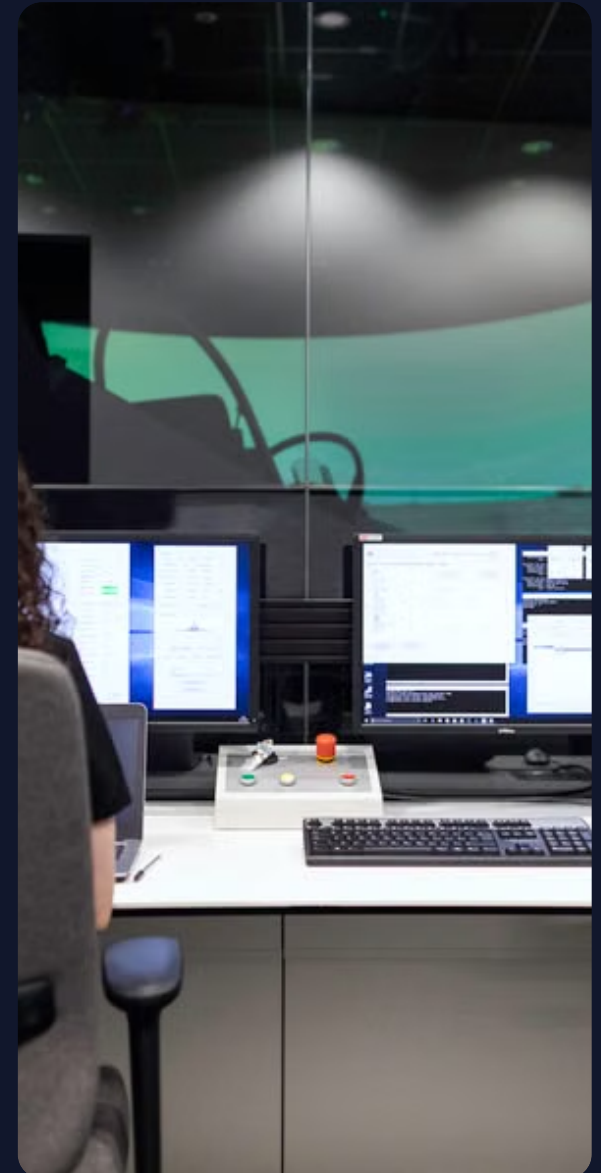

We bridge the gap between innovative ideas and market-ready products, on schedule and on budget.

V

Our vision

To be a globally recognised technology partner, known for engineering excellence, innovation and lasting client impact.

We envision a future where every entrepreneur has access to world-class engineering talent — regardless of geography or budget.

A comprehensive suite, across the whole software lifecycle

Custom Software Development

Web platforms, plus native iOS/Android and cross-platform mobile applications.

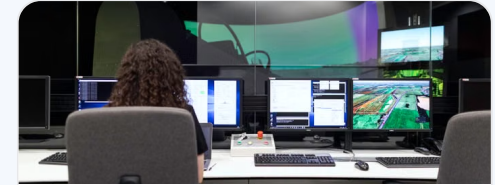

UI / UX Design

User-centred interface and experience design that drives engagement and conversion.

DevOps & Cloud

Cloud infrastructure, CI/CD pipelines, containerisation and server management.

AI / ML Solutions

Computer vision, NLP, predictive models and LLM integrations.

05

System Integration

Seamless integration with third-party payment gateways and enterprise systems.

06

QA & Automation Testing

Manual and automated testing to ensure product quality and reliability.

07

Maintenance & Support

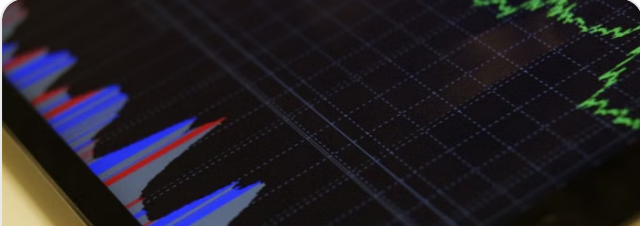

Ongoing technical support, performance monitoring and iterative improvements.

08

IT Consulting

Strategic technology advisory for architecture, scalability and digital transformation.

Domain context we didn't learn on your budget

Real Estate

Listing marketplaces, virtual tours, agent dashboards and CRM.

Logistics

Fleet tracking, route planning and proof-of-delivery capture.

Telecom

Bulk messaging, multi-tenant portals and usage analytics.

E-commerce

Storefronts, headless commerce and checkout tuned for conversion.

Education

School management, LMS and adaptive learning platforms.

Manufacturing

ERP covering inventory, HR, finance and operations modules.

What we have already built

01

SMS Portal System

Enterprise-grade bulk SMS management with real-time analytics, carrier integration and multi-tenant architecture.

1M+

Messages processed daily

02

Property Marketplace

Full-featured real estate platform with advanced search, map integration, virtual tours, agent dashboards and CRM.

Real Estate

Listings, tours and agent CRM

03

ERP System

Custom enterprise resource planning covering inventory, HR, finance and operations modules for manufacturing clients.

4 modules

Inventory · HR · Finance · Ops

04

CRM Dashboard

Intuitive customer relationship management with pipeline tracking, automated workflows, reporting and third-party integrations.

05

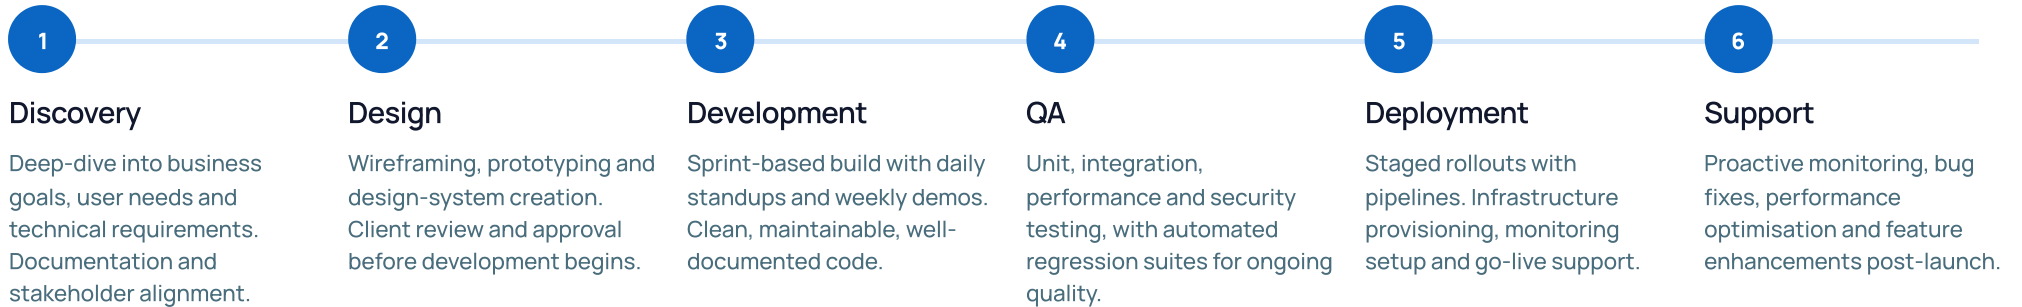

Mobile Applications

Cross-platform mobile for e-commerce, healthcare and logistics — delivered with native-like performance and UX.

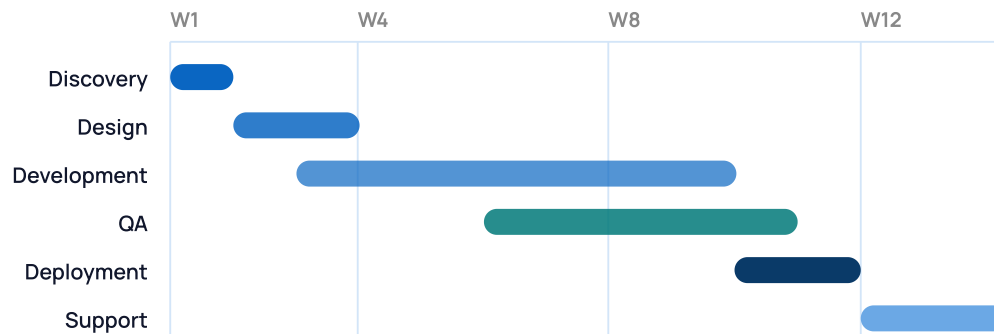

A proven methodology, run in iterative sprints

Transparency, flexibility and continuous delivery — from first workshop to post-launch support.

TYPICAL DELIVERY TIMELINE

2 wks

Sprint length, demo at every close

8 wks

Typical MVP to production

72 hrs

Shortlist for augmentation briefs

30 days

Post-launch support included

Built different

01

Strategic advisory

A US-based advisor with 15+ years guiding venture strategy, market fit and growth.

02

Certified engineers

15+ full-stack, cloud-certified engineers across React, Node, AWS, Flutter and AI/ML.

03

Global dev ops

Coverage across the USA and Bangladesh, with time-zone alignment built in.

04

Ship-fast culture

Agile sprints, CI/CD and automated QA — MVPs in weeks, not months.

05

Modern stack only

Next.js, React Native, Tailwind, LangChain, Terraform — never legacy by default.

06

Partnerships, not gigs

Nearly every engagement becomes a retainer. That is the number we are proudest of.

WHERE OUR ENGINEERS SIT

We work with the stack you already use

Production technologies across web, mobile, data, cloud and AI — chosen because they are better, not because they are new.

FRONTEND & DESIGN

React Next.js TypeScript
Vue.js Tailwind CSS Figma

MOBILE

React Native Flutter Dart

CLOUD & DEVOPS

AWS Docker Kubernetes Vercel
Firebase

BACKEND & APIS

Node.js Python Laravel
Spring Boot GraphQL Prisma

DATA

PostgreSQL MongoDB MySQL
Redis InfluxDB

AI & MACHINE LEARNING

TensorFlow OpenAI LangChain
D3.js

ENGAGEMENT MODELS

- **Fixed-scope build** — scoped, quoted once, milestone-billed.
- **Dedicated team** — a squad reserved for you, month to month.
- **Staff augmentation** — senior engineers inside your team.

Measured against the number the client cared about

Happy clients

98%

Client satisfaction

E-COMMERCE · 6 MONTHS

E-commerce Platform Transformation

A complete overhaul of an outdated platform, rebuilt on React, Node and AWS with advanced merchandising, search and checkout.

300%

Faster page loads

150%

Conversion growth

HEALTHCARE · 8 MONTHS

Healthcare Management System

One patient record spanning scheduling, billing and video consultation, on an audited, encrypted stack with role-based access.

80%

Less admin work

200%

Patient engagement

LOGISTICS · 9 MONTHS

Supply Chain Management Platform

An event-driven platform on Kafka reconciling warehouse, supplier and carrier feeds into one live view of the chain.

45%

Lower op. costs

30%

Faster delivery

Strategic goals

01

Global Expansion

Establishing strategic partnerships and delivery centres to serve clients across North America, Europe and Asia — with localised support and time-zone alignment.

02

Emerging Technologies

Integrating artificial intelligence, machine learning and data analytics into our service offerings, to deliver smarter, data-driven solutions for clients.

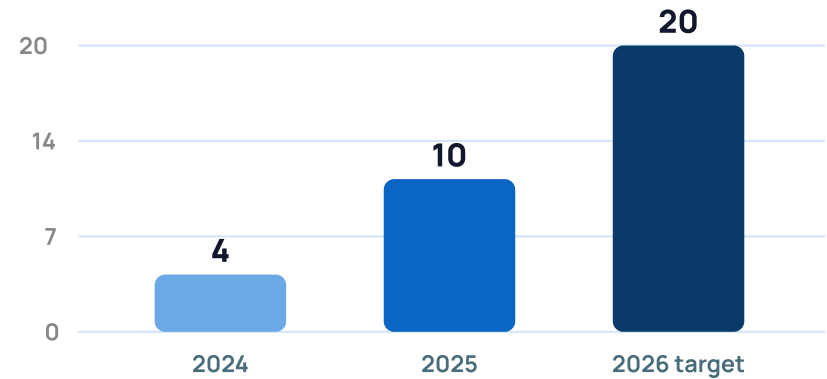

03

SaaS Product Development

Building proprietary SaaS products in high-demand verticals — leveraging our engineering depth to create recurring revenue and expand our market presence.

Bring The Idea — We'll Build The Engine

DELIVERY GROWTH SINCE FOUNING

What clients say

SourceExpert transformed our concept into a fully functional MVP in just 8 weeks. Their technical expertise and clear communication made the entire process seamless. Highly recommend for any startup looking to move fast.

Musarof Hossain

CEO, NBM · Dhaka, Bangladesh

We needed a school management system that could handle complex workflows. The team delivered beyond expectations – clean architecture, beautiful UI and rock-solid performance.

Mohiuddin

Founder, greenleaf-bd · Dhaka, Bangladesh

The AI/ML model they built for our fintech platform is phenomenal. Accurate predictions, clean API, and they even helped us optimise cloud costs. A true technology partner.

Mahfujul Haque

Founder, khaate.com · Dhaka, Bangladesh

Let's build something great

We'd love to discuss how SourceExpert can help you achieve your technology goals.
